

The new era of HR Service Delivery is here, with Neocase.ai!

Offer your employees a mobile application

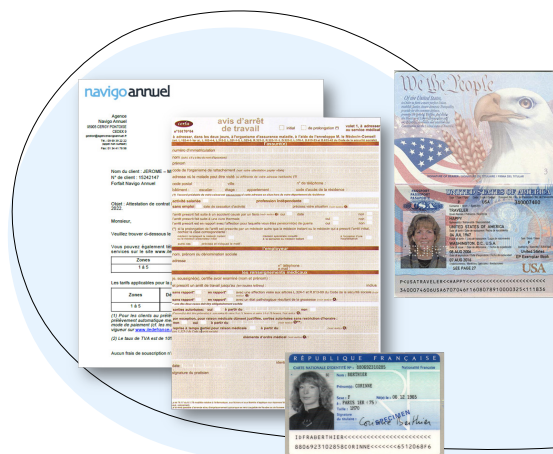

Free up even more time for your HR managers with AI

Benefit from the full power of your HR data

Automatic document processing using AI

Employees can send their documents, such as work stoppages, transport receipts, etc., **directly as a photo taken with their smartphone**. Thanks to AI, the document is **automatically recognized** and the data extracted and stored, ready for processing.

Enhanced knowledge base with Azure OpenAI (GPT)

When employees have questions for HR, they use **natural language**, with a variety of spellings and possible ambiguities. Suggestions from conventional knowledge base engines are not necessarily accurate in these contexts. With AI, the **relevance of results is multiplied**, to the great satisfaction of employees and managers alike.

Automatic qualification of employee requests

Whether by e-mail or intranet, AI **automatically qualifies** employee requests and Neocase **routes them to the appropriate HR Agent**. Improved employee experience and reduced workload for your HR teams.

Learn more about
our solutions

Automatic translation of HR requests by AI

Simplify your SSC's language management with automatic translation of employee requests. AI enables **vital HR contextualization**, allowing employee-HR exchanges to take place in each person's **native language**.

Mobile Application

Some employees don't have access to a company computer which restricts their access to HR. Neocase provides a mobile application that enables **every employee to access all HR services** from home or on the move.

New datawarehouse

If you want to **analyze your data with your own dataviz tool** like MS PowerBI or Tableau, now you can. The new datawarehouse gives you access to your data in near-real time with the latest Business Intelligence tools.

Analytics API

If you have an enterprise datalake or datawarehouse and would like to feed it with **your Neocase HR data**, the new BI API makes it possible!

ABOUT US

Neocase offers innovative cloud-based HR Service Delivery solutions tailored to SMEs and large enterprises, whether or not they use a shared services center.

With 15 years of experience, Neocase currently manages HR services for over 150 large global companies, covering more than 6 million employees worldwide.

Neocase HR enables Human Resources departments to digitize their service offerings through collaborative case management, simple and flexible process automation (no code), and documentation management compliant with GDPR. Pre-configured and personalized processes, such as the employee journey (including onboarding), facilitate a simple and fast implementation of the solution. With Neocase, HR can ensure operational excellence that enhances the employee experience, generates satisfaction, and reduces costs and the risk of errors.
